

“ADDING VALUE TO THE HONDURAN ECONOMY”

Edition

October
2018

“HONDURAS CHANGES HONDURAS”

End of Year “Adding Value”

by Tree of Life

A spectacular presentation

by the graduating your, with an abundance of excelent, attractive and important business proposals. This year the yourth shined in their presentation that has been our innovation hallmark signature in education since 2011.

Placing in the winners circle are the following models: in 4th place - “The School of Football”; in 3rd place - “The Farm”; in 2nd place - “The Digital Publicity Proposal”; and in 1st place -- “Honduras Lemon”

Thank you to the national team that filled as the judges for this event. Likewise, to Victoria Rose who also has been a continual support and help for these excellent projects.

The presentations were well designed models by the different groups, as the judges viewed the digital presentations the processes used for the investigation, the planning and the developing of the business models.

In general it was a greatly organized event where the tutors, that were in charge of the training of all the teams, also displayed a great dedication for each of the projects.

Special thanks to the tutors that from week to week were imparting their wisdom, knowledge and ideas that are building the youth and Culminating in the successful presentations of each project.

Our objective is to plant the desire in each youth to be entrepreneurs opening opportunities to other people in our country in the form of employment and interstate commerce as well as taking the products that our Nation produces and becoming exporters of those products.

This project is crucial in the formation of the student of our Institution.

Your generosity makes it possible for continued excellence in education provided by Plan Escalon.

The celebration of our National Day of Identity.

The youth shined in their productions for the National Day of Identity in Honduras.

Traditional costumes, champas, traditional foods and drinks, folklore dances and the presentation of the beautiful Indian among the presentations. This special day is dedicated in sharing with the world our national culture and to display our national ethnic heritage.

The youth of our Institute did wonderfully with the support of their teachers as their artistic abilities were Received with admiration by the spectators. Continuing our heritage as and educational institution of excellence, our students were honored with the prized first and second place in the traditional Indian 2108 presentation. Congratulations to **Deisy Cortez & Evin Miranda**.

A visit by Danilo's Care to Plan Escalon

National support from businesses such as Danilo's Care, PriceSmart and Angels for Honduras was demonstrated by their presence in this 2018 school year.

They continue to invest in our youth with the objective to create future entrepreneurs in our country.

Recently Danilo's Cares organized an event in the leather factory Danilo's Pure Leather, designed to inspire the spirit of innovation and entrepreneurship in all the youth of Honduras.

PriceSmart... A globally renown company whose interest it to support the youth of Plan Escalon.

Thank you for your generosity in support of the Honduran education. Specifically for these youth who fight to become successful intellectually in our nation.

"SPONSOR OUR STUDENTS"

The youth that study in Plan Escalon economically support only half of their costs as an intern. If you would like to help sponsor youth and their needs, please write us at tree_of_life_ministries@tolm.org.

One time gift to Plan Escalon?

Thank you for considering our youth at Árbol de Vida (Tree of Life) and enabling us to y build their capacity to become future men and women who will become successful entrepreneurs that will lift the economic capacity of our wonderful country.

Very thankful to **Ángeles para Honduras** for thinking of the Youth of Honduras, knowing that our youth, like many in our nation, are economically handicapped but are encouraged by your generosity to fulfill their dreams.

Thank you very much to all those who support us in 2018

"Honduras Changes Honduras"

If your company is in Honduras and you want to support the education of young people with limited resources in our country write to us tree_of_life_ministries@tolm.org

Or visit Us at La Jigua Copan Honduras, Km4 road to Copan Ruinas.

For your donations you can do it through the website. www.tolm.org

Life in Action

The project that was created to never stop.

More than 15 years of bringing hope to the many families in the various communities and we continue with this great impact.

This is an effort that cannot stop because every day there are more families that need our help, as The Church who are in charge of bringing the Good News Gospel of Jesus and the hope for the different communities. In addition, people receive and feel the emotional support along with the medical brigades, food, clothing and water purifiers among other efforts.

A host of international people who come to Plan Escalon can go to any community and also participate as well. As experience the joy of the humanitarian help that we give to countless people.

Even our students participate, as part of their educational formation, in learning that they also must be a generous people always giving back what God has given them and being the answer for the future of Honduras.

The change in the hearts is reciprocal that is discovered as we help. We enjoy the great blessing given as we fill the need of others through the abundance that has now filled in our own lives. We who no longer have the needs that we use to experience causes us to abound in much thanksgiving as we help others.

Life in Action must continue as it has always been in God's plan as we find it in His word through James 1:27.

The most recent project...

In Life in Action, there are many projects that are completed but the one that shines the most between them all are the water purification systems that have benefitted multiple communities.

This system provides completely purified water to all the people in the community, a vital resource to prevent so many diseases that are transmitted through contaminated water.

We invite you to visit our country Honduras and together we can travel to our villages, where you can see the needs of our brothers and be able to be part of the support that year after year we provide.

Come and visit us at Plan Escalon

If you would like to take a short-term mission trip and visit our ministry in Honduras please contact us via email at:
